Examiner's Reason For Allowance

1. In view of applicant's argument presented in the Appeal Brief, dated September 10, 2004, the finality of the office action issued on January 12, 2004, is hereby withdrawn.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest the underlying structure and function of the claimed invention. Of particular interest are the software instructions of a particular software element, or task information of a task of the software element, which are divided into two sets of data structures, the two sets located in different memory areas, each set containing task information associated with the same particular task of the software element, such that the task of the software element can access one of the memory areas and not the other. Prior art of record failed to teach, a first and second task control blocks associated with a particular task, where the task control blocks are located in different memory space areas, one area directly accessible by the particular task with which the task control blocks are associated, and the other area not directly accessible by the particular task with which the task control blocks are associated (Appeal Brief, page 2-3).

Moreover, prior art of record failed to teach, there are registers that are memory areas in which are located task control blocks that contain information pertaining to a task, much less the same particular task. Furthermore, prior art of record fails to disclose, that a particular task, with which both the first and second registers are associated, can access the second register, but not the first set of registers.

Art Unit: 2127

The cited prior art of record lacks sufficient scope and implementation detailed to fairly teach or suggest the combination of limitations claimed in the instant invention when the claimed inventions are interpreted in light of the Applicant's specification.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Majid A. Banankhah** whose telephone number is (571) 272-3770. The examiner can normally be reached on Monday – Thursday, 7:00 AM – 3:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Meng-Ai An can be reached on (571) 272-3756.
